LIGHTCOCE
INNOVATE TOGETHER

TAKE PART
IN THE
LIGHTCOCE
OPEN CALL!

Are Lightweight Ceramics or Concrete an essential part of your business?

From SMEs to large enterprise, industries and R&D organizations, our open call is addressed to anyone interested in having free of charge access to the range of services and facilities available in the LightCoce ecosystem, covering the access to five pilot lines for concrete and ceramics' upscaling and testing, as well as complementary services supporting the commercialization of these materials, such as characterisation, process modelling, quality assurance and monitoring, standardisation, safety, market uptake and innovation management services.

Take the opportunity to innovate and develop
a business idea through a one stop shop!

APPLY TO THE
OPEN CALL
AND:

Develop your novel business
idea within the lightweight
materials' value chain,
free of charge

Receive mentoring and support
from highly specialized universities,
research organizations and high-tech
companies from all over Europe

FOLLOW OUR OPEN CALL THROUGH THE LIGHTCOCE ONLINE PLATFORM: <http://lightcoce.com>

LightCoce is an one stop shop providing holistic services for the development of novel concepts, in the fields of lightweight concrete, as well as conventional and advanced ceramics. LightCoce services cover the whole value chain from the upscaling of a new product, material or technology to its commercialization.
